

BE PICKY ABOUT YOUR PROGENY

We want to make your future deer decisions accurate and informed ones. Let's leave the guesswork to others.

We don't do pin the tail on the donkey, blindly choosing our next generation of deer based on what we've got.

Our commercially raised Hinds have been tested on hill country and we cull hard because we have large herds that give us scale. They aren't soft pampered types with a spectrum of supplements and drenches to look sparkling pre-sale.

Instead we use seasons of industry-leading BVs and data sets to support our decisions so you can make yours knowing we've done all the hard work for you. The Across Breed trial work amongst other trials at AgResearch Invermay backs this.

If you want a commercial Hind with high growth rate progeny that will command higher prices if you're not finishing them yourself, we can help.

If you want weaners to finish at heavier weights and earlier, we can also help.

Our Hinds are all scanned in-calf early and ready to go. We have a great selection for you to choose from.

We look forward to seeing you at our sale.

**7th In Calf Hinds Sale, Tuesday 4th July 2023 1pm
(Viewing and BBQ from 12). 480 Gudex Road, RD17, Fairlie**
